

INVESTOR FACT SHEET

MAY 2018
TSX.V:FLY
OTCQX:FLYLF

ABOUT FLYHT AEROSPACE SOLUTIONS LTD. :

FLYHT's mission is to improve aviation safety, efficiency and profitability (located in Calgary, Canada; publicly traded as: FLY:TSX.V; FLYLF:OTCQX). Airlines, leasing companies, fractional owners and original equipment manufacturers have installed the Automated Flight Information Reporting System (AFIRS™) on their aircraft to capture, process and stream aircraft data with real-time alerts. AFIRS sends this information through satellite networks to the UpTime™ cloud-based data center, which provides aircraft operators with direct **insight** into the operational status and health of their aircraft and enables them to take corrective **action** to maintain the highest standard of operational **control**.

Revenue Based on Location

TOTAL 2017 REVENUE:
\$14,018,750

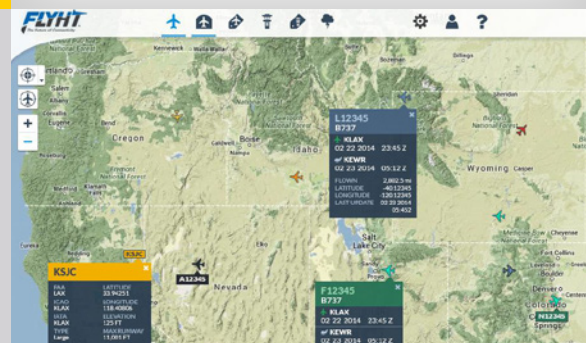

WHAT WE OFFER:

FLYHT's proprietary technology, AFIRS, operates on multiple aircraft types and provides functions such as safety services voice and data, text messaging, data collection and transmission, and on-demand streaming of flight data recorder (black box), engine and airframe data. These AFIRS services are managed through our enterprise server UpTime which has recorded over 3 million aggregate flight hours and 2 million flights on customers' aircraft. FLYHT holds supplemental type certificates (STC) which allow for the installation of AFIRS on 95% of transport category aircraft.

HOW WE DO IT:

AFIRS sends this information through the Iridium Satellite Network to FLYHT's UpTime cloud-based data centre, which routes the data to customer-specified end points and provides an interface for real-time aircraft interaction.

WHY WE DO IT:

B767 SUCCESS STORY

Customers have benefited from the real-time data provided by the AFIRS technology to help streamline their operations and improve their safety while saving them money.

PROBLEM: In one case, an AFIRS notification of high engine vibrations prompted a customer to take the aircraft out of service to examine the engine. Upon inspection, a serious mechanical flaw was found in the turbine that would have resulted in engine failure if it had continued to operate.

SOLUTION: AFIRS provided monetary and safety benefits to the customer, directly avoiding outlay of \$5.2 million for a replacement engine and instead affording the customer the option to expend \$780,000 on a timely engine repair.

SHARE STRUCTURE ⁽¹⁾

As of April 30, 2018

Market Cap	\$30.9 million
Share Price	\$1.63
52 week low-high	\$1.46 - \$2.70
Shares	21,058,617

Warrants outstanding (weighted average exercise price of \$2.49) 1,716,000

Options outstanding (weighted average exercise price of \$2.21) 908,498

⁽¹⁾ This table reflects a consolidation of shares of 1 new share for 10 existing pre-consolidation shares, effective July 2017.

FINANCIAL HIGHLIGHTS

Financial highlights (\$millions)

	2017	2016	2015	2014	2013
Revenue	\$14.0	\$14.3	\$10.5	\$6.9	\$8.0
Net Profit (Loss)	(\$1.8)	\$1.7	(\$3.9)	(\$4.3)	(\$4.1)
EBITDA	(\$1.2)	\$2.5	(\$3.2)	(\$3.3)	(\$2.9)
Cash	\$2.0	\$0.71	\$1.3	\$3.9	\$5.2
Net Assets	\$1.1	\$1.9	(\$5.0)	(\$1.9)	(\$2.3)

INVESTOR HIGHLIGHTS

Revenue Sources

- Well positioned to support the aviation industry as it advances to meet regulations, including mandates on Autonomous Distress Tracking and Timely Recovery of Flight Data with Patented FLYHTStream™
- Multiple revenue streams – Software as a Service (SaaS), AFIRS Hardware, Licensing, Technical Services
 - SaaS revenue is recurring and subscription based; 70-85% gross margin
 - AFIRS Hardware revenue is 40-50% gross margin
 - Licensing fees >90% gross margin
 - Technical services revenue is derived from time- and materials-based customization activities
