Appointment of Proxyholders

Accompanying this Management Proxy Circular is an instrument of proxy for use at the Meeting. Shareholders who are unable to attend the Meeting in person and wish to be represented by proxy are required to date and sign the enclosed instrument of proxy and return it in the enclosed return envelope. **All properly executed instruments of proxy for Shareholders must be mailed so as to reach or be deposited at the offices of Computershare Trust Company of Canada, Proxy Department, 100 University Avenue, 8th Floor, Toronto, Ontario, M5J 2Y1 not later than 48 hours (excluding Saturdays, Sundays and statutory holidays) prior to the time set for the Meeting or any adjournment thereof.**

The persons designated in the instrument of proxy are officers and/or directors of the Corporation. **A Shareholder has the right to appoint a person (who need not be a Shareholder) other than the persons designated in the accompanying instrument of proxy, to attend at and represent the Shareholder at the Meeting.** To exercise this right, a Shareholder should insert the name of the designated representative in the blank space provided on the instrument of proxy and strike out the names of management's nominees. Alternatively, a Shareholder may complete another appropriate instrument of proxy.

Signing of Proxy

The instrument of proxy must be signed by the Shareholder or the Shareholder's duly appointed attorney authorized in writing or, if the Shareholder is a corporation, under its corporate seal or by a duly authorized officer or attorney of the corporation. An instrument of proxy signed by a person acting as attorney or in some other representative capacity (including a representative of a corporate Shareholder) should indicate that person's capacity (following his or her signature) and should be accompanied by the appropriate instrument evidencing qualification and authority to act (unless such instrument has previously been filed with the Corporation).

Revocability of Proxies

A Shareholder who has submitted an instrument of proxy may revoke it at any time prior to the exercise thereof. In addition to any manner permitted by law, a proxy may be revoked by instrument in writing executed by the Shareholder or by his or her duly authorized attorney or, if the Shareholder is a corporation, under its corporate seal or executed by a duly authorized officer or attorney of the corporation and deposited either: (i) at the registered office of the Corporation at any time up to and including the last business day preceding the day of the Meeting, or any adjournments thereof, at which the instrument of proxy is to be used; or (ii) with the Chairman of the Meeting on the day of the Meeting, or any adjournment thereof. In addition, an instrument of proxy may be revoked: (i) by the Shareholder personally attending the Meeting and voting the securities represented thereby or, if the Shareholder is a corporation, by a duly authorized representative of the corporation attending at the Meeting and voting such securities; or (ii) in any other manner permitted by law.

Voting of Proxies and Exercise of Discretion by Proxyholders

All Common Shares represented at the Meeting by properly executed proxies will be voted on any ballot that may be called for and, where a choice with respect to any matter to be acted upon has been specified in the instrument of proxy, the Common Shares represented by the instrument of proxy will be voted in accordance with such instructions. The management designees named in the accompanying instrument of proxy will vote or withhold from voting the Common Shares in respect of which they are appointed in accordance with the direction of the Shareholder appointing him or her on any ballot that may be called for at the Meeting. **Each Shareholder can vote for all of the nominated directors, vote for some of them and withhold for others, or withhold for all of them. In the absence of such direction, such Common Shares will be voted "FOR" the proposed resolutions at the Meetings, including the election of each of the nominated directors. The accompanying instrument of proxy confers discretionary authority upon the persons named therein with respect to amendments of or variations to the matters identified in the accompanying Notice and with respect to other matters that may properly be brought before the Meeting.** In the event that amendments or variations to matters identified in the Notice are properly brought before the Meeting or any further or other business is properly brought before the Meeting, it is the intention of the management designees to vote in accordance with their best judgment on such matters or business. At the time of printing this Management Proxy Circular, the management of the Corporation knows of no such amendment, variation or other matter to come before the Meeting other than the matters referred to in the accompanying Notice.

INTEREST OF CERTAIN PERSONS OR COMPANIES IN MATTERS TO BE ACTED ON

Except as disclosed in this Management Proxy Circular, none of the directors or executive officers of the Corporation at any time since the beginning of the Corporation's last financial year, nor any proposed nominee for election as a director of the Corporation, nor any associate or affiliate of any of the foregoing persons, has any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise in any matter to be acted on, other than the election of directors or the appointment of auditors.

VOTING SECURITIES AND PRINCIPAL HOLDERS OF VOTING SECURITIES

Voting of Common Shares – General

The record date for the determination of Shareholders entitled to receive notice of and to vote at the Meeting is March 26, 2021 (the "Record Date"). Only Shareholders whose names are entered in the Corporation's register of shareholders at the close of business on that date and holders of Common Shares issued by the Corporation after such date and prior to the Meeting will be entitled to receive notice of and to vote at the Meeting, provided that, to the extent that: (i) a registered Shareholder has transferred the ownership of any Common Shares subsequent to the Record Date; and (ii) the transferee of those Common Shares produces properly endorsed share certificates, or otherwise establishes that he or she owns the Common Shares and demands, not later than ten days before the Meeting, that his or her name be included on the Shareholder list before the Meeting, in which case the transferee shall be entitled to vote his or her Common Shares at the Meeting.

The Corporation is authorized to issue an unlimited number of Common Shares without par value and an unlimited number of Preferred Shares. On the Record Date, of the Corporation's authorized Common Shares, 27,279,024 Common Shares were issued and outstanding as fully paid and non-assessable and no other shares were outstanding.

Voting of Common Shares – Advice to Non-Registered Holders

Only registered holders of Common Shares, or the persons they appoint as their proxies, are permitted to attend and vote at the Meeting. However, in many cases, Common Shares beneficially owned by a holder (a "Non-Registered Holder") are registered either:

- (a) in the name of an intermediary (an "Intermediary") that the Non-Registered Holder deals with in respect of the Common Shares. Intermediaries include banks, trust companies, securities dealers or brokers, and trustees or administrators of self-administered RRSPs, RRIFs, RESPs and similar plans; or
- (b) in the name of a clearing agency (such as The Canadian Depository for Securities Limited or "CDS").

In accordance with the requirements of National Instrument 54-101 of the Canadian Securities Administrators, the Corporation has distributed copies of the Notice, this Management Proxy Circular and the instrument of proxy (collectively, the "Meeting Materials") to the clearing agencies and Intermediaries for onward distribution to Non-Registered Holders.

Intermediaries are required to forward meeting materials to Non-Registered Holders unless a Non-Registered Holder has waived the right to receive them. Typically, Intermediaries will use a service company (such as ADP Investor Communications ("ADP")) to forward meeting materials to Non-Registered Holders.

Generally, Non-Registered Holders who have not waived the right to receive meeting materials will:

- (a) have received as part of the Meeting Materials a voting instruction form which must be completed, signed and delivered by the Non-Registered Holder in accordance with the directions on the voting instruction form; voting instruction forms sent by ADP permit the completion of the voting instruction form by telephone or through the Internet at www.investorvote.com; or
- (b) less typically, be given a proxy which has already been signed by the Intermediary (typically by a facsimile, stamped signature) which is restricted as to the number of Common Shares beneficially owned by the Non-Registered Holder but which is otherwise uncompleted. This form of proxy need not be signed by the Non-Registered Holder. In this case, the Non-Registered Holder who wishes to submit a proxy should otherwise properly complete the form of proxy and deposit it with Computershare Trust Company of Canada at the address referred to above.

The purpose of these procedures is to permit Non-Registered Holders to direct the voting of the Common Shares they beneficially own. Should a Non-Registered Holder wish to attend and vote at the Meeting in person (or have another person attend and vote on behalf of the Non-Registered Holder), the Non-Registered Holder should strike out the names of the persons named in the proxy and insert the Non-Registered Holder's (or such other person's) name in the blank space provided or, in the case of a voting instruction form, follow the corresponding instructions on the form. **In either case, Non-Registered Holders should carefully follow the instructions of their Intermediaries and their service companies.**

Only registered Shareholders have the right to revoke a proxy. Non-Registered Holders who wish to change their vote must in sufficient time in advance of the Meeting, arrange for their respective Intermediaries to change their vote and if necessary revoke their proxy in accordance with the revocation procedures set above.

Voting by Internet

FLYHT Aerospace Solutions Ltd. shareholders may use the internet site at www.investorvote.com to transmit their voting instructions. Shareholders should have the form of proxy in hand when they access the web site and will be prompted to enter their Control Number, which is located on the form of proxy. If Shareholders vote by internet, their vote must be received not later than 2:00 p.m. (MT) on May 4, 2021 or 48 hours prior to the time of any adjournment of the Meeting. The website may be used to appoint a proxyholder to attend and vote on a Shareholder's behalf at the Meeting and to convey a Shareholder's voting instructions. Please note that if a Shareholder appoints a proxyholder and submits their voting instructions and subsequently wishes to change their appointment, a Shareholder may resubmit their proxy and/or voting direction, prior to the deadline noted above. When resubmitting a proxy, the most recent submitted proxy will be recognized as the only valid one, and all previous proxies submitted will be disregarded and considered revoked, provided that the last proxy is submitted by the deadline noted above.

Principal Holders of Common Shares

To the best of the knowledge of the directors and executive officers of the Corporation, as at the date hereof, there are no persons, corporations or other entities (other than securities depositories) who beneficially own, directly or indirectly, or exercise control or discretion over voting securities carrying more than 10% of the voting rights attached to the Common Shares of the Corporation.

Quorum

Pursuant to the by-laws of the Corporation, a quorum of Shareholders is present at the Meeting irrespective of the number of persons actually present if two Shareholders or duly appointed proxyholders are present in person, each being a shareholder entitled to vote at the Meeting. Pursuant to the *Canada Business Corporations Act* and the by-laws, if a quorum is present at the opening of the Meeting, the Shareholders present may proceed with the business of the Meeting notwithstanding that a quorum is not present throughout the Meeting. If a quorum is not present at the opening of the Meeting, the Shareholders present may adjourn the Meeting to a fixed time and place but may not transact any other business.

Stock option plans and other incentive plans

The Corporation has no other incentive plans other than its stock option plan (the "**Plan**"). The Plan provides that the board of directors may from time to time, in its discretion grant to directors, officers and employees of the Corporation and to consultants retained by the Corporation, non-transferable options to purchase common shares ("**Common Shares**"), or such other shares as may be substituted therefore, in the capital of the Corporation for a period of up to five years from the date of the grant provided that the number of Common Shares reserved for issuance may not exceed 10% of the total issued and outstanding Common Shares of the Corporation at the date of the grant.

The purpose of this Plan is to advance the interests of the Corporation by encouraging the directors, officers and employees of the Corporation and consultants retained by the Corporation to acquire Common Shares, thereby: (i) increasing the proprietary interests of such persons in the Corporation; (ii) aligning the interests of such persons with

the interests of the Corporation's shareholders generally; (iii) encouraging such persons to remain associated with the Corporation and (iv) furnishing such persons with an additional incentive in their efforts on behalf of the Corporation.

The following is a summary of the material terms of the Plan:

- The number of Common Shares to be reserved and authorized for issuance pursuant to options granted under the Plan shall not exceed ten percent (10%) of the total number of issued and outstanding shares in the Corporation.

Change of control is defined as a change in control, or a situation where giving effect to the transaction any entity holds 50% of more of the voting shares or any combination of person acting in concert would be in a position to materially affect more than 50% control of the Corporation or resulting corporation, where such person or persons did not previously hold a sufficient number of voting shares to exercise control.

Mr. Plamondon left the Corporation's employ on December 31, 2020.

Oversight and description of directors and NEO compensation

Compensation of the NEO's of the Corporation is reviewed annually by the governance and compensation committee (the "Governance and Compensation Committee") and is subsequently approved by the board of directors of the Corporation based on the recommendation of the Governance and Compensation Committee. The compensation of the Corporation's NEO's consists principally of a base salary and variable compensation, if any, which may include a performance-based component. NEO's are also eligible to participate in the Corporation's stock option plan (the "Stock Option Plan") as described herein.

The board of directors of the Corporation and the Governance and Compensation Committee's objective in setting compensation levels is that the aggregate compensation received by NEO's be generally competitive with the compensation received by persons with similar qualifications and responsibilities who are employed by other companies of corresponding size and stage of development. In setting such levels, the board and the Governance and Compensation Committee rely on their own experience and knowledge, and an internally compiled report of executive compensation from a wide variety of publicly traded companies of similar size and geographical location. The Governance and Compensation Committee has not retained the assistance of a compensation consultant.

Base Salaries and Variable Compensation – The Corporation's view of base salaries is that they should be competitive with industry peers, to the extent that can be determined, and with other public companies at similar stages of development and having similar assets, number of employees, market capitalization and profit margin. Employment agreements entered into with NEO's also provide that the salary is subject to normal periodic review on or about the anniversary date of any employment agreement. In addition to the salary, the board of directors of the Corporation may from time to time pay variable compensation to NEO's for either the accomplishment of specific performance criteria or for exceptional performance.

Options – Pursuant to the Corporation's Stock Option Plan as approved by the shareholders at the Annual General Meeting, the board of directors of the Corporation, at its discretion, determines all grants of stock options to NEO's. Such grants are considered incentives intended to align the NEO's' and Shareholders' interests in the long term. The Corporation emphasizes stock options in executive compensation as they allow the NEO's to share in corporate results in a manner that is relatively cost-effective despite the effects of treating stock options as a compensation expense. The Governance and Compensation Committee provides recommendations to the board of directors with respect to option grants to NEO's.

Performance Based and Deferred Compensation – In 2020, Ms. Forbes and Mr. Plamondon received a variable compensation payment under their employment contracts.

Compensation Risk Assessment and Mitigation

The Governance and Compensation Committee considers the implications of the risks associated with the Corporation's compensation policies and practices when determining rewards for its executives and ensures that those policies do not encourage management to take inappropriate or excessive risks. The Governance and Compensation Committee does not believe that there are any risks arising from the compensation policies and practices that would be reasonably likely to have a material adverse effect on the Corporation.

The Corporation's compensation program includes several mechanisms to ensure risk-taking behavior falls within reasonable risk tolerance levels, including:

- a balanced compensation mix between fixed and variable (at zero risk) and between short and long-term incentives that defer award value;
- having a cap on short-term incentive awards;
- commission plan payments are based on cash received;
- establishment of performance criteria and corresponding objectives which represent a balance of performance and quality and sustainability of such performance;
- establishment of a compensation package within range of competitive practices (peer group);
- enforcement of trading bans under the corporate disclosure policy;
- enforcement of the corporate insider trading and reporting policy;
- explicit restrictions on hedging of equity awards by executives;
- utilizing longer-term incentive plans for diversification and alignment with risk realization periods (option based awards).

Under the Corporation's policies, neither officers nor directors are permitted to take any derivative or speculative positions in the Corporation's securities. This is to prevent the purchase of financial instruments that are designed to hedge or offset any decrease in the market value of the Corporation's securities.

Director Compensation

For the year ending December 31, 2020, the Corporation compensated its directors in their capacity as a director of the Corporation at \$1,500 per month if the director was independent. If the Chairman or Vice-Chairman of the board of directors was an independent director, his/her compensation was increased by an additional \$500 per month; and if a director was the chairman of a board subcommittee his/her remuneration was increased by \$500 per month. Mr. Tempany's board compensation from 2015-2020 was set at \$2,500 per month per a 2015 separation agreement and has been suspended for the term of the management consulting agreement between the Corporation and Fintech Systems Inc. Director compensation was reduced by 10% effective May 1 – December 31, 2020, to support the Corporation through the COVID-19 pandemic. For a summary of compensation paid to the directors of the Corporation in respect of the year ended December 31, 2020 please refer to the compensation tables above (under *Director and NEO Compensation*).

Each director is eligible to receive stock options of the Corporation. The Corporation has compensated the directors with stock options in 2020, details of which are included in the compensation tables above (under *Stock Options and Other Compensation Securities*).

The Corporation has purchased, at its expense, a directors' and officers' liability insurance policy, which expires December 31, 2021. This covers the directors and officers of the Corporation against liability incurred by them in their capacities as directors and officers of the Corporation. The coverage has an aggregate limit of \$10 million, a \$5 million side A difference in conditions, and an additional \$5 million excess layer. There is a deductible of \$20,000. Premiums paid by the Corporation for the directors and officers liability insurance total \$88,464.

- (h) to prescribe the form and terms of the instruments pertaining to the grant, exercise and other terms of the Options, including any vesting provisions.

5. PLAN REQUIREMENTS

5.1 General Plan Requirements

Options will be distributed on an equitable basis, having regard to:

- (a) the number of Optionees;
- (b) the frequency of Optionee turnover;
- (c) the size of allocation to new Optionees; and
- (d) the duties and qualifications of the Optionee in relation to the Optionee's position with the Corporation.

The Plan will not be used primarily as a means of financing by the Corporation, without disclosure requirements and hold periods that would generally apply to a financing.

5.2 Grants to Individuals

The aggregate number of Common Shares that may be reserved for issuance pursuant to the Plan for Options granted to an individual Optionee will not exceed 5% of the issued Common Shares, determined at the date the Option is granted to an individual in a 12 month period, unless the Corporation becomes a Tier 1 Issuer and has obtained the requisite disinterested shareholder approval required by Exchange Policy 4.4.

5.3 Grants to Consultants

The aggregate number of Common Shares that may be reserved for issuance pursuant to the Plan for Options granted to any one Consultant Optionee in any 12 month period will not exceed 2% of the issued Common Shares, calculated at the date the Option is granted to the Consultant Optionee.

5.4 Grants to Optionees Performing Investor Relations Activities

The aggregate number of Common Shares under Option granted in any 12 month period to Persons employed to provide Investor Relations Activities will not exceed 2% of the issued Common Shares, calculated as of the date the Option was granted. This 2% Option will be included in the calculation of the 10% maximum reservation of Common Shares pursuant to the Plan.

Options granted to Consultants performing Investor Relations Activities must vest in stages over 12 months with no more than $\frac{1}{4}$ of the Options vesting in any three month period.

The Board will establish appropriate procedures to monitor the trading in the securities of the Corporation by all Optionees performing Investor Relations Activities, including a requirement that all Optionees immediately notify the Corporation of any acquisitions or trades made and that the Optionees make any necessary insider trading reports on SEDI.

A Company to be granted the Option must agree not to effect or permit any transfer of ownership or option of shares of the Company or issuance of additional shares of any class of shares of the Company to any individual or entity as long as the Option remains outstanding, except with the written consent of the Exchange.

The Corporation must ensure that the applicable Securities Laws are satisfied for each Option granted under the Plan.

5.6 Minimum Exercise Price

The minimum exercise price of an Option must not be less than the Discounted Market Price. If pursuant to section 2.12 of Exchange Policy 4.4, the Corporation does not issue a news release to fix the price, the Discounted Market Price will be the last closing price of the Common Shares before the date of the grant of Option, less the applicable discount.

A minimum exercise price cannot be established unless the Options are allocated to particular Persons.

If Options are granted within 90 days of a Distribution by a Prospectus, the minimum exercise price of such Options will be the greater of the Discounted Market Price and the per share price paid by the public investors for the Common Shares acquired under the Distribution. The 90-day period will begin:

- (a) on the date a final receipt is issued by the Exchange for the Prospectus; or
- (b) in the case of a Prospectus that qualifies special warrants on the closing date of the special warrant Private Placement.

The exercise price of the Options must be paid in cash.

5.7 Hold Period

In addition to any Resale Restrictions under Securities Laws and any other circumstance for which an Exchange hold period may apply (including those circumstances applicable to Options issued to Insiders), where the exercise price of an Option is based on the Discounted Market Price, all such Options and the Common Shares issued on the exercise of the Options must be legended with a four month Exchange hold period commencing on the date the Options were granted. The legend must be worded in accordance with Exchange Policy requirements.

6. NUMBER OF SHARES UNDER THE PLAN

Options may be granted by resolution of the Board to Directors, Employees and/or Consultants pursuant to the Plan provided that on the date of any such grant the aggregate number of Common Shares reserved and set aside for issuance under Options granted to Optionees pursuant to the Plan and under other stock options ("Other Stock Options") granted to Directors, Employees and/or Consultants and assumed by the Corporation as a result of the Amalgamation shall not exceed ten per cent (10%) of the issued and outstanding Common Shares. Fractional Common Shares shall not be reserved, set aside, purchased or issued under the Plan. In any such event, the maximum number of shares available under the Plan may be appropriately adjusted by the Board. If as a result of a proposed merger, amalgamation or other corporate arrangement or reorganization, the conversion or replacement of Common Shares for shares of another corporation is imminent; the Board may determine, in a fair and equitable manner how all unexercised Options should be treated including without limitation, an acceleration of the time for the exercise of such Options by the Optionee and of the time for the fulfillment of any terms, conditions or restrictions required for the exercise of such Options. All determinations of the Board under this paragraph shall be made in accordance with the Policies of the Exchange and the applicable Securities Laws and shall be made in the sole discretion of the Board. The Corporation may satisfy any obligation to the Optionee hereunder by paying to the Optionee in cash the difference between the Exercise Price of any unexercised portion of the Option and the fair market value of the securities to which the Optionee would be entitled upon exercise of such portion, regardless of whether all conditions of exercise have been satisfied. Any Option adjustments under this paragraph or any determinations as to the fair market value of any securities shall be made by the Board and all such determinations shall be binding and conclusive.

Providing an equal opportunity workplace where everyone contributes to the corporate goal of helping the industry the Corporation serves be as efficient as possible is at the core of the Corporation's purpose.
The Corporation's Corporate Disclosure Policy assists in governance of the conduct of its directors, officers, spokespersons and employees as it relates to communications with the public. The Corporation does not currently have a formal code of business conduct or policy in place for its directors, officers, employees and consultants. The board of directors believes that the Corporation's size facilitates informal review of and discussions with employees and consultants.
The Corporation has a whistleblower policy in place which is acknowledged by all employees upon hire, and which is periodically reviewed with all staff.
A comprehensive anti-corruption policy ensures all relevant staff and consultants are trained appropriately. Relevant consultants are required to attest to compliance on a regular basis and all business opportunities are evaluated in with this policy in mind. Directors are informed of activities undertaken to minimize risk in this area.

The board of directors monitors ethical conduct of the Corporation and ensures that it complies with applicable legal and regulatory requirements, such as those of relevant securities commissions and stock exchanges. The board of directors has found that the fiduciary duties placed on individual directors by the Corporation's governing corporate legislation and the common law, as well as the restrictions placed by applicable corporate legislation on the individual director's participation in decisions of the board of directors in which the director has an interest, have been sufficient to ensure that the board of directors operates independently of management and in the best interests of the Corporation.

The board of directors takes responsibility for monitoring and assessing its effectiveness and the performance of individual directors, its committees, including reviewing the board of director's decision making processes and the quality of information provided by management.

- 9. Diversity** — Describe director term limits, diversity policies and targets (if any), as well as statistics regarding representation by designated groups on both the Corporation's board of directors and at the executive officer level.

The board of directors and the senior management team believe that diversity is important to provide the necessary range of perspectives, experience and expertise required to achieve effective stewardship. The board of directors and senior management team have been purposely constructed with a wide range of viewpoints, backgrounds, skills, experience and expertise specific to the aviation technology industry sector and other industries or sectors that the board of directors believe are beneficial to the Corporation and its shareholders.

The Corporation has not adopted: (i) a written diversity policy relating to the identification and nomination of members of the designated groups; and (ii) a target number or percentage, or range, for members of the designated groups. Diversity has been a consideration and part of ongoing and continual efforts to further diversify the board of directors and the senior management team. The board of directors, rather than recruiting based on a target for each designated group, considers the diversity of representation for designated groups, given the level of industry and business background required for the position, with the goal to fill any gaps in skillset or experience at the time of the opening and the potential for the candidate to add to the board or to the senior management team's effectiveness.

The board of directors has not adopted term limits or other mechanisms of board renewal. Our board believes that it is critical that our members understand our industry and business, and this requires a certain length of tenure on our board. Longer tenured members accumulate extensive knowledge specific to the Corporation while new members bring new experience and perspective. The board of directors believes in maintaining the healthy balance of both historical expertise and new experience of our board. Each member of the board serves from that date of election or appointment until the next annual meeting of the Corporation's shareholders at which directors are elected.
