

CLEARPORT

CLEAR WINDOW INTO YOUR TURN PROCESS

“On Time” should not be based on luck

Move beyond reporting into action before the delay

Operate in the moment with Actionable Intelligence – solutions to the right person to make the right decision at the right time

- Focus on the problems
- Ignore the flights running smoothly

Process improvement approach versus “reporting and pressure” – improve how your work which allows you to

- increase network efficiency and aircraft utilization
- focus on the turn and not just the delay

Improve the most visible period the aircraft is on the ground in the eyes of the customer – Net Promoter Score (NPS)

- Consolidate systems and information to one application
- Receive real time alerts when each flight is on en route, on final descent and on the gate

- Allows you to track the critical above and below wing milestones in real-time so that you can take corrective action BEFORE you take a delay
- Displays live video of the ramp so you can actively see each turn in action. Plan daily staff needs based on turns and staff qualifications

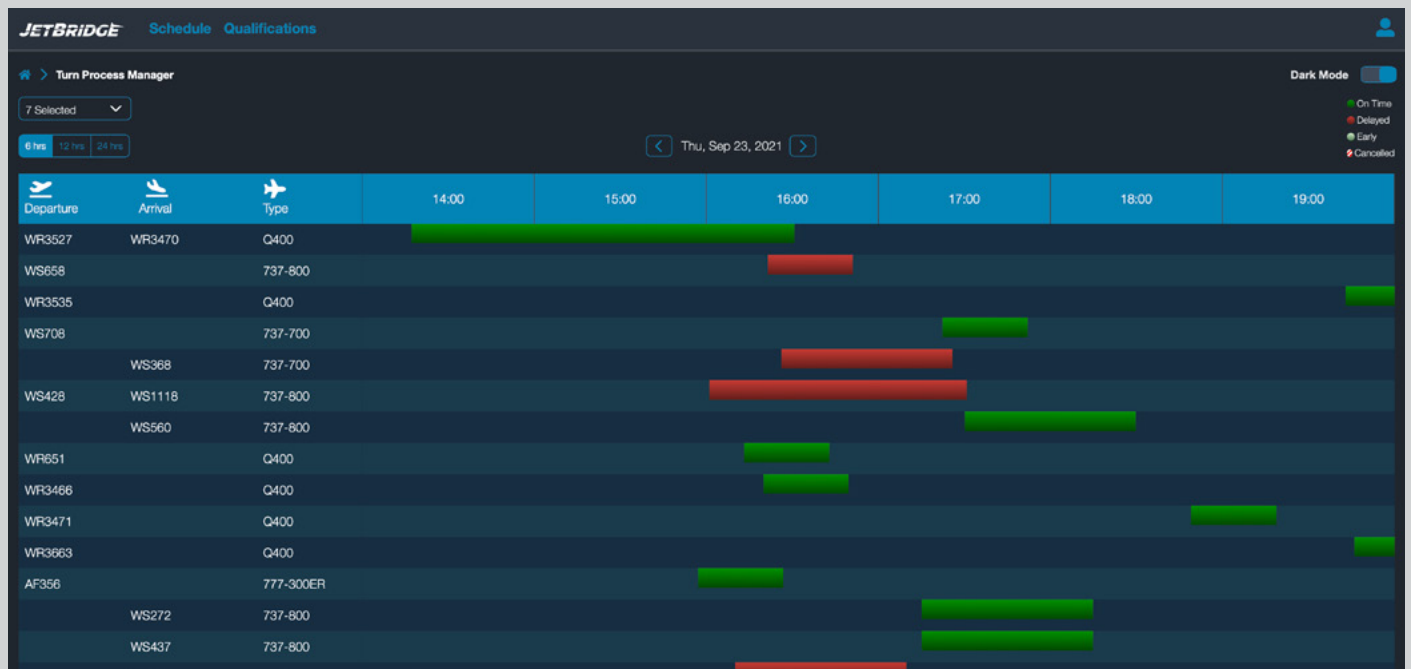

Choose your level of integration

- Displays updated turn information without costly integration with Airline systems
- Turnkey system level data inputs without a need for additional integrations
- Additional integrations only increase efficacy of the tool
- Minimal IT involvement
