

FUELSENSE

SAFE AND ACTIONABLE FUEL EFFICIENCY

Providing targeted guidance through impactful decision support

Drive operational change with quantifiable data

Discover the “fuel leaks” in your operation

- **Monitor** the effectiveness of operational policy and fleet changes right inside the program
- **Quantitatively understand** fuel efficiency at each phase of flight to improve flight crew procedures
- **Proactively manage** and minimize APU use
- Gain insight into **and prevent** gate arrival delays
- **Minimize** the cost of carriage and apply your learning to flight planning procedures
- **Compare** real flight data to how the flight was planned to highlight opportunities for improvement
- **Identify** the likelihood of various unplanned events and the relevant amounts of fuel required, allowing flight dispatchers the ability to learn to safety and confidently plan less fuel

Customized tracking and analysis solutions are effortless with FLYHT’s team of developers, data scientists and subject matter experts

Complement FuelSense with the complete JetBridge product suite to further enhance your awareness of, and reaction to, fuel efficiency challenges
